The John Wayne Airport Arts Program is pleased to announce Joan Joan Joan! One Subject, Many Artists. This selection of portraits from the Quinn family collection includes nearly 200 artists' interpretations of the same subject - their friend and patroness of the arts, Joan Quinn. These works provide a link to the vibrant art scene in Los Angeles and around the world, from the 1960s through today. Collectively they are a journal of artists' careers and the timeline of a woman's life, giving a glimpse into friendships established and maintained over the years. Joan's wide-ranging activities in the arts helped generate a continuum of portraits by many artists, some of whom had never made one before. The exhibit offers a rare opportunity to see into the minds of artists through their diverse styles, and how they approach one subject over the course of more than 50 years. This body of work is a comprehensive study in portraiture.

Location: Departure (upper) level in Terminal A across from Gates 2 through 5, in Terminal C across from Gates 18 through 21 and in the free standing display cases across from Gate 14. The exhibition is available for viewing by ticketed passengers.
